

Value-add service for Property Management Software

Since 2015 our team has been supporting holiday accommodation owners to make their properties stand out and get noticed. We proactively help improve images and provide cost-efficient proven websites, providing a trusted place for safe bookings.

How can this help your clients?

- They will have quality images to use to build their brand presence. This will make their property/ies stand out in searches, provide integrity and project professionalism.
- We pro-actively improve our clients' website content to help them improve their SERP (search engine ranking position).

Commercial benefits?

- You receive a referral fee for every client you introduce us to that goes on to use ACT Studios services. Eg 10% off photography fees and £60 for every website referral.
- You can choose to keep referral fees for your bottom line or pass it onto your clients.
